

1326 SE 8th St. Minneapolis, MN 55414**Objective:** Apply my software skills to motivate the world to move toward a plant based diet.**EDUCATION**

09/2014— 12/2017	University of Minnesota – Minneapolis, MN Notable Coursework: 121 credits completed (72 Technical credits)	Major: Computer Science B.S. Minor: Math Major GPA: 3.30/4.00 Last Semester GPA: 3.66/4.0
---------------------	--	--

EXPERIENCE

01/2018— Present	Software Engineer at Optum Technology, 12125 Technology Dr., Eden Prairie, MN 55344 - Automating virtual machine deployment - Implementing CI/CD into development pipeline - Working with chatbot to streamline changes to production code - Following agile software development
06/2017— 08/2017	Machine Learning and AI Intern at Optum Technology, 13625 Technology Dr., Eden Prairie, MN 55344 - Developing python script that creates recommender system ported to many platforms - Presented work, attended meetings, and followed agile software development
05/2016— 06/2017	Application Developer at Actual Software, 180 5th St E #228, St Paul, MN 55101 - Developed android application individually - Completing different developer's android application
08/2015— 05/2016	Technical Assistant at Computer Accommodations Program, 200 SE Oak St, Minneapolis, MN 55455 - Managed accessibility issues with websites using a ticket system - Experience with accessible web development
08/2015— 05/2016	Tutor and Access Assistant at Disability Resource Center, 200 SE Oak St, Minneapolis, MN 55455 Tutor and Assist blind student with computer science classes
02/2015— 05/2015	Security Monitor at Security Monitor Program, 300 Washington Avenue Southeast, Minneapolis, MN 55455 Learned importance of being attentive and thorough while working
06/2014— 08/2014	IT Intern at Marketing Innovators, 9701 W. Higgins Rd. Rosemont, IL 60018-4717 - Managed error testing using a ticket system of websites based on SQL databases - Communicated with overseas companies

PROJECTS

08/2016— 06/2017	CubeSat: - Created a system to apply/revert updates to code while satellite is in orbit - Worked on integrating code from various sub teams to large code base
06/2017 – 08/2017	CURE - Consumer Uber Recommendation Engine - Creates hyper-personalized recommendations using machine learning

TECHNICAL SKILLS

Programming	Python, Java, C++, C, SQL, JavaScript, R, HTML, CSS, and Clojure
OS knowledge	Linux, Mac OS, Microsoft Windows, and Unix

EXTRACURRICULAR ACTIVITIES

CAA	Social Chair of Compassionate Action for Animals
ACM	Member of Association for Computing Machinery
Competitions	Participant of 2015/2016/2017 ACM-ICPC and MinneHack programming competitions
